EXPERIENCE

Product Designer · ProjectDiscovery · Sep 25 – Present

Overhauled Neo's interaction model into target-centric workspaces, cutting setup time by nearly 40% and improving accuracy.

Accelerated time-to-first-investigation by ~50% by replacing conversational interfaces with structured, guided workflows.

Built self-serve billing and credit workflows, letting customers track usage, purchase credits, and manage invoices independently.

Built production-quality interactive prototypes using Cursor and Claude Code, accelerating validation and reducing design-to-dev handoff.

Sr. UI/UX Designer · SHIELD · Jul 24 – Jul 25

Redesigned SHIELD's fraud intelligence dashboard, improving risk signal prioritization and navigation, boosting adoption by ~30%.

Led design of Luna, an MUI 5 design system with reusable components and tokens, cutting front-end build time by 25%.

Founding Designer · Censius · Apr 21 – Jan 24

Led end-to-end design of an MLOps observability platform (monitoring, drift detection, troubleshooting), boosting data scientist efficiency by 10%.

Redesigned and iterated on the Censius website using analytics and A/B testing, lifting conversion rates by 16%.

UX Designer · Soupage IT Solutions · Feb 20 – Mar 21

Designed the end-to-end UX for Libero, an AI video platform recognized by MeitY as a top contender for government use.

Graphic Designer · Neerja Softwares · Aug 18 – Jan 20

Designed cross-platform web and mobile UI for diverse agency clients across multiple industries.
